

PORTE SUMMONS  
STATE ASSEMBLY

Will Take Under Advisement Balkan Situation.

MORE CONCESSIONS PROBABLE

Turkish Cabinet Unable to Yield Further Without Risking Its Fall—Balkan Delegates at London Do Not Believe Turkey's Reply to Joint Note of Powers Will Be Such a Flat Refusal as Dispatches Indicate.

London, Jan. 20.—The porte's decision to call a national assembly Tuesday to take under advisement the Balkan situation probably heralds further concessions on the part of Turkey—concessions which could not be yielded by the cabinet without risking its fall. In any case the Balkan delegates in London do not believe the porte's reply to the joint note of the powers will be such a flat refusal as was foreshadowed from Constantinople.

Dispatches report that the Turkish government has reached a decision not to cede Adrianople or the Aegean islands, but is willing to enter into negotiations respecting these islands some distance removed from the Dardanelles.

If Turkey's answer is unsatisfactory the allies, in deference to Europe, will ask the powers whether they have means to compel Turkey to comply with their wishes. If not the allies will carry out the plan already announced, leading to the resumption of the war.

In such event the allies will regard all concessions heretofore made for the sake of peace, either to Turkey or the powers, as void. Thus they will not recognize the undertaking concerning an autonomous Albania, or the promise of Serbia and Montenegro to retire from the Adriatic. Questioned as to the possibility in this case of Austria employing force the head of one of the delegations said:

"We shall see whether the triple entente, and especially Russia, will permit such action on the part of Austria. If we are forced to fight another war, the cost of which is nearly \$1,000,000 daily, we will not abandon territories already occupied unless driven out by force. That would mean a European war."

If Austria were permitted to march on Belgrade and to bombard our troops on the Adriatic, and we were crushed, we should prefer to become Austrian rather than belong to the Slav race when our mother, Russia, lacks the force or will to protect us."

## FARMS INCREASE IN VALUE

Minnesota Immigration Commissioner Compiles Statistics.

St. Paul, Jan. 20.—Minnesota farmers have increased their wealth during the last thirty years by \$1,237,692,873, according to figures compiled by H. J. Maxfield, state immigration commissioner.

The total value of farm lands with improvements, machinery, live stock, etc., was placed at \$1,476,411,737 in the latest reports, while in 1880 the total value was \$238,718,864. This makes an average annual increase of \$441,256,429.

The largest portion of these values is in land, the figures being \$1,262,411,426 now, as against \$193,724,260 in 1880, a gain of \$1,068,717,166, and an annual increase of \$30,657,238. Live stock values in 1880 were \$31,904,821, as against present values of \$161,641,146, a gain of \$129,736,325.

## CAUCUS FAVORS STERLING

Opposition Still Claims He Will Not Be Elected.

Pierre, S. D., Jan. 20.—It is all over but the shouting in the senatorial race, if the caucus is to be considered. According to those who attended it was a straight lineup of sixty-three house members and twenty-three senate members, who gave their pledge to vote for Sterling.

While the opposition concedes a strong Sterling vote in the house it expects to prevent his procuring a majority in the senate on the first ballot, thus throwing the issue into a joint ballot Wednesday, in which they claim assurances of enough changes after the first ballot to prevent Sterling's election.

## DEATH RATE IS DECREASED

Lower in New York State Than Ever Before.

Albany, N. Y., Jan. 20.—New York state's death rate of 1912—14.6 per thousand population—was the lowest ever shown in the state. According to statistics for 1911 these figures indicate a saving of more than 5,000 lives.

"Public health is a purchasable commodity," comments State Commissioner of Health Porter in submitting this information to the legislature in his annual report. "The magnificent achievements of Colonel Forgas in the canal zone can be duplicated in every hamlet whenever the people of the community make up their minds to have it so."

LEADERS WORK  
FOR HARMONY

Democrats Striving to Bring Factions Together.

## REORGANIZATION IN SENATE

Contest Which at One Time Premised Sensational Developments Shows Little Activity—Program Is Being Drawn to Insure Progressive Democrats a Full Voice in Future Administration of Upper House.

Washington, Jan. 20.—President Elect Wilson's refusal to allow himself to be committed to any definite plans of reorganization or to outline publicly details of his legislative plans has had a marked influence on congressional activity during the last few weeks.

Plans that promised to engross the session in political fights at both ends of the Capitol now are held in abeyance, while congressional interest centers about the more routine work of legislation, investigation and tariff bill hearings.

Democratic leaders from both houses have made pilgrimages to New Jersey since Christmas to talk over the new administration's work with the incoming president. The result of these conferences, however, has been to hold up for the present any concerted reorganization schemes in the senate and house and to restrain the activity of the Democratic forces that would have launched several important political and legislative programs.

To the majority of those who have visited him Governor Wilson has given little indication of his plans for legislation, or his support of certain policies. The few to whom he has confided definite opinions have been pledged to secrecy and have been unable to use the president elect's influence to aid their own plans or to support any general program of action.

The reorganization fight in the senate, which promised sensational developments in December, has shown little activity during the last two weeks. The efforts of Democratic leaders now are directed toward bringing about an outcome that will leave no dissatisfied faction in the party and will, at the same time, insure the so-called progressive Democratic force a full voice in the future administration of the senate.

Routine legislation is expected to occupy the attention of the senate and house throughout the present week. Further efforts to solve the tangle in the senate over President Taft's 1,300 appointments will be made during the week, the hope of the Democrats being that they can force the Republicans into some arrangement whereby a part of the Taft appointments can be allowed to go unconfirmed, leaving the places to be filled by President Wilson.

## NO ONE YET FOR CABINET

President Elect Says He Has Made No Selections.

Princeton, N. J., Jan. 20.—President Elect Wilson reiterated that he had made absolutely no decision as to the personnel of his cabinet and added that, thus far, he had not consciously conferred with any prospective candidates.

"I would not do that," he said, "until I had finally made up my mind to pick a man. I haven't consciously consulted with any future cabinet member," and added as an afterthought, "though I might have consulted with some men whom I might subsequently choose."

## FATAL FIGHT OVER BATH

Beaten to Tuff Disappointed Man Stabs Winner of Race.

Chicago, Jan. 20.—In a fight over the right to take a bath first Albert Blain probably was fatally stabbed and Frank J. Hirro is under arrest charged with the assault.

The two men are said to have quarreled a week ago when they met in the bathroom, clad in their bath robes, at the same time. Blain beat Hirro in a race for the tub. The fight followed in which the disappointed man is said to have drawn a knife.

## DEATH LIST IS FORTY-THREE

One Hundred and Ninety-one Saved From Liner.

Oporto, Portugal, Jan. 20.—Forty-three lives lost is the toll from the wreck of the Lamport & Holt liner Veronesi near Leixoes in a heavy gale.

There were 234 persons aboard—142 passengers and a crew of 92. Of these 191 were saved. Five persons died aboard the steamer from exposure; thirty-eight were swept off by the seas or perished while being transferred ashore by the lifelines.

THOMAS F. CONWAY.  
New York Lawyer Is Urged  
for New Attorney General.

President Elect Wilson has been asked to name Thomas F. Conway, former lieutenant governor of New York, as attorney general in his cabinet. His name has the backing of most of the prominent New York up state Democrats and it is understood, of United States Senator James A. O'Gorman and Governor Sulzer.

BANDIT SECURES  
VALUABLE PACKAGES

Rifles Mail Car on Southern Railway in Alabama.

Anniston, Ala., Jan. 20.—A bandit rifled the mail car of the Southern Railway passenger train No. 12 near Riverside, Ala., and escaped with what is said to be valuable registered packages. Only the mail clerk, E. L. Cragmen, was in the car and he was covered with a revolver.

It is believed the bandit boarded the train at Lincoln, Ala., where a stop was made for water, and gained entrance to the mail car through an end door.

As the train slowed down for the Riverside stop the robber leaped from the car and escaped into the rugged country of that section.

Cragmen furnished a description of the robber and railroad detectives, aided by residents of the Riverside section, searched the country, but without avail.

## WILL RECOMMEND CHANGES

Minnesota Governor Favors Reform in Judicial Procedure.

St. Paul, Jan. 20.—In the form of a special message to the legislature, which will be submitted some time this week, Governor Eberhart will recommend and urge a program for the simplification and reform of judicial procedure in Minnesota.

The recommendations will embody the substance of a report submitted to him by the legal commission which the governor recently appointed to investigate the matter and make a report.

The recommendations submitted by the legal commission propose an increase in the membership of the supreme court from five to seven, the holding of more frequent terms, conviction in civil cases by five-sixths of the jury, appeals from an order granting a new trial or from an order sustaining a demurrer to be permitted only when such an order is passed exclusively upon errors occurring at the trial, and several other reforms.

## WILSON STUDIES GUIDE BOOK

President Elect Knows Little About Washington

Princeton, N. J., Jan. 20.—President Elect Wilson disclosed the fact that he has obtained a guide book of Washington and is reading assiduously in spare moments.

Mr. Wilson practically will be a stranger in Washington when he takes office. He has visited there but little since his youth and has never seen some of the government buildings erected within the last fifteen years. When he steps into the White House on March 4 it will be the first time he will have seen the interior of the executive mansion.

## One Dead, Three Hurt in Wreck.

Great Falls, Mont., Jan. 20.—John Johnson, twenty-six years old, was instantly killed and George Caldwell, Roy Pfeiffer and another were severely injured while employed as a Great Northern railroad crew in trying to save the trestle at Stockton from destruction by fire, when the breakers at the Cottonwood Coal company were burned, causing a loss of \$75,000.

POPULISTIC IDEA  
MEETS APPROVAL

Congressman Bathrick Plans System For Farm Loans.

## EFFECT OF APPROPRIATIONS.

Suggested That Expenditures Have Brought North and South Together In "One Grand Raid"—President Elect Causes Lockjaw Among Statesmen Who Visit Him.

By ARTHUR W. DUNN.

Washington, Jan. 20.—[Special.]—If the Populists, who assembled at Ocala, Fla., in 1890 and afterward nominated a ticket at Omaha in 1892, could have stayed together they might have been putting the principles they then enunciated into law instead of seeing Republican and Democratic parties putting their theories into practice. President Taft, in an effort to do something for the farmers, has suggested farm loans at a low rate of interest. Congressman Bathrick formulates the suggestion into a bill which provides for a bureau to arrange loans on the credit of the government.

The plan differs a little from the sub-treasury proposition of the Populists, simply in this, however—that the government is to secure itself upon farm loans instead of having the collateral, farm products, stored in so called sub-treasuries. Of course it will be some time before the farm loan plan is put into effect, but it is observed that a Republican president encourages and a Democratic congressman formulates a scheme for loaning farmers government money at a low rate of interest.

## Coxey Too Precious.

Those who recall General Coxey and his army can no doubt remember the decision which his project for issuing bonds to the amount of \$500,000,000 and applying the proceeds to the building of roads caused up and down the country. And yet if the plans of the advocates of good roads should be carried out that half billion will be only a drop in the bucket. Once there is a project put on foot to build roads for the whole country by the government there is no end to the expenditures. Estimates go into the billions and beyond, for, as one man said, "The wind will blow away a billion dollars of the roads every year after they are constructed."

## New Kind of Republican.

Congressman Carter was discussing the good qualities of an officeholder in Oklahoma and concluded by saying that the only objection that might be found to him was that he was a rabid Republican.

"I never heard of a rabid Republican," said Miller of Minnesota.

"Then you don't know the Oklahoma brand," said Carter.

## Shearing the Lambs.

Curiously enough, congressmen are engaged in manipulating stocks or that stocks are manipulated so that certain people, small in number, make large profits and that other people, very numerous, contribute to the wealth of those few. "Amazement sits upon her brow," remarked Hamlet, speaking of the queen. That was when she found out what she had known all the time, only it was being made public. So with our congressmen. They are amazed when they are told about the big profits of big banks. They are astounded when they learn that manipulations on stock exchanges net big money, and occasionally a congressman will introduce a resolution, with a series of whereases attached, and demand an inquiry.

And yet the facts are all there and have been for years, just as they were twenty years ago when the Washburn-Hatch anti-trust bill was before congress. That measure was intended to stop stock gambling, but after a year or two it died.

## Effect of Appropriations.

Congressman Kinkaid of Nebraska was discoursing on the decadence of state rights and the tendency toward centralization. He had been talking of the former ideas which Slayden of Texas interrupted to call the "good old days," to which Kinkaid assented and added, "The change in the sentiment has been accelerated, perhaps, by selfish interests and motives or by appropriations which might have been secured."

"Like Mark Twain's suggestion of the old flag and an appropriation," remarked Slayden.

"And by the improvement of rivers and harbors and things like that," said Kinkaid. "I think they have helped to bring the north and the south together again."

## In one grand raid," said Slayden.

"And we all join hands," continued Kinkaid, "especially when an omnibus public building bill comes up. We are all brothers then, and we are all state rights men then, and are especially for the national government at that time."

## Gives Them Lockjaw.

"It looks as if Woodrow Wilson had kicked a case of lockjaw into Hoke Smith and those other Democrats who have been making the pilgrimage to Trenton," remarked Charlie Carlin of Virginia. "It is noticeable that they have nothing to say when they return."

Governor Wilson not only seems able to keep his own counsel, but he makes the other people respect his confidences.

## Musical Note.

He—Are you honest? She—I play the piano. He—Well, that's not an absolute denial.—London Mail

REV. DR. D. D. RUSSELL.  
Minister Who Will Officiate  
at Helen Gould's Wedding.

Dr. Russell is pastor of the Presbyterian church of Irvington, N. Y., where Miss Gould worships when she is living in her country residence, Lynhurst, at Tarrytown, N. Y. Dr. Russell will marry Miss Gould at Lynhurst this month to Finley J. Shepard. This wedding is attracting attention the country over.

INDIANS SAY THEY  
WILL DIE FIGHTING

Utes Refuse to Surrender One of Their Number.

Cortez, Colo., Jan. 20.—Determined not to deliver Big Rabbit, one of their tribesmen, to the authorities to answer a charge of assault, the fifty Ute Indians who are entrenched in the mountains eighteen miles from here, defied a sheriff's posse of a hundred men.

The Indians took up their position in the mountains after they had left the Ute reservation in southwestern Colorado and declare that they will fight the white men to death rather than give up Big Rabbit.

Indian Agent Spear has been appealed to by the county authorities in the hope that he might be able to induce the Indians to return to the reservation and surrender Big Rabbit. Spear's advances, however, were rebuffed by the Indians and he wired the interior department at Washington for instructions.

As soon as the Utes learned that Big Rabbit was wanted by the sheriff, who would place him under arrest to face the charge of having shot Joseph Vichel, a Mexican sheep herder, the Indian's friends departed with him into the mountains. All are armed with repeating rifles and are said to be amply supplied with ammunition.

## MANY REFORMS IN SPAIN

Program Includes Religious Freedom and Free Education.

Madrid, Jan. 20.—Count Alvaro de Romanos, the new premier, will publish his program as soon as the king returns from a hunting trip in Granada.

The program is strongly marked by liberal tendencies, is understood to comprise complete reconstruction of the associations bill, after negotiations with the Vatican; complete religious freedom; secularization of the cemeteries; obligatory civil marriage; a diminution of the number of non-elective senators and a corresponding increase of elective senators; abolition of the death penalty; freedom of education; increased salaries for teachers; important public improvements; the creation of a second squadron of the fleet and various measures to improve the condition of the working classes.

## SUFFRAGE IN EMPIRE STATE

Legislature This Week May Submit Question to Voters.

Albany, N. Y., Jan. 20.—After years of effort the advocates of woman suffrage believe a constitutional amendment, which, if approved by the people, will give the women of New York state the right to vote, will be passed by the legislature the present week. The measure has been made a special order of business in the assembly Monday night and the senate promises to consider it on Tuesday.

## Senator Smith's Father Dies.

Santa Ana, Cal., Jan. 20.—George R. Smith, father of Senator William Alden Smith of Michigan, died at his home here, aged eighty-two years.

FEW INTERESTS  
CONTROL TIMBER

## DUCHESS OF TALLYRAND HERE

To Attend Gould Wedding—Mauretania's Roughest Trip.

New York, Jan. 20.—The Duchess of Tallyrand, formerly Miss Anna Gould, reached here with her husband, the Duke of Tallyrand, and her three and a half-year-old son, Prince Howard de Sagan, on the belated steamer Mauretania to attend the wedding on Jan. 22 of Miss Helen Gould, the duchess's sister, and Finley J. Shepard. Anthony J. Drexel, father-in-law of Marjorie Gould, daughter of George J. Gould, also came over to attend the wedding.

The Mauretania's passage from Liverpool was the roughest and slowest trip she has ever made. During an especially heavy blow last Wednesday part of the ship's rail was carried away, the plate glass windows of the bridge were broken and passengers thrown from their berths at the dead of night.

## MAY BE OWN EXECUTIONERS

Proposed to Allow Condemned Criminals to Commit Suicide.

Salt Lake City, Jan. 20.—The method to be used hereafter in executing criminals in the state of Utah has become a topic widely discussed since the legislature convened two weeks ago. The latest idea expressed is that condemned criminals be allowed to take their own lives.

The state law now provides that condemned criminals be executed either by shooting or hanging, the choice to be made by the person to be executed. Governor Spry in his message to the legislature has recommended that the state adopt the electric chair.

## PLANNING AUTOMOBILE TRIP

Officer Would Take Regiment on Long Journey.

Washington, Jan. 20.—Colonel E. F. Glenn, Twenty-third Infantry, stationed at Fort Benjamin Harrison, Ind., has completed plans to take his regiment on an "automobile hike" to the Pacific coast and back, and while the war department entertains favorable views on the general subjects, this particular project probably will not go through, as it would require the acquisition of a large number of trucks. Colonel Glenn's plan contemplates the employment of not less than 140 motor trucks.

He estimates that the regiment could proceed sixty miles a day as compared with fifteen miles a day, the average for infantry on foot, and with twenty-five miles a day, the average for cavalry.

## SHOT WHILE AIDING HUSBAND

Two Negroes Hold Up Chicago Grocer and Wound Wife.

Chicago, Jan. 20.—Mrs. Rebecca Raginsky, wife of a grocer, was shot in the back and probably fatally wounded while attempting to aid her husband in a fight with robbers. Two negroes had entered the store and, drawing revolvers, commanded the grocer to hold up his hands.

During the fight the combatants struggled into the street, where the robber discharged his revolver. The bullet struck the woman, who was making an effort to aid her husband, and inflicted a serious wound. The bandit escaped, leaving his overcoat, cap and weapon behind.

## GRAIN AND PROVISION PRICES

Duluth Wheat and Flax.

Duluth, Jan. 20.—Wheat—To arrive and on track—No. 1 hard, 87½¢; No. 1 Northern, 89½¢; No. 2 Northern, 84½¢; May, 88½¢; July, 90¢. Flax—On track and to arrive, \$1.29½; Jan., \$1.29½; May, \$1.32½.

## South St. Paul Live Stock.

South St. Paul, Jan. 20.—Cattle—Steers, \$5.75@9.00; cows and heifers, \$4.00@7.00; calves, \$4.25@9.25; feeders, \$4.00@7.10. Hogs—\$7.15@7.30. Sheep—Lambs, \$4.50@8.25; wethers, \$4.00@5.25; ewes, \$2.25@4.75.

## Chicago Grain and Provisions.

Chicago, Jan. 20.—Wheat—May, 88½¢; July, 90¢; Sept., 89½¢; Corn—May, 51½¢; July, 52½¢; Sept., 51½¢. Oats—May, 33½¢; July, 33½¢; Sept., 33½¢. Pork—Jan., \$18.50; May, \$18.75. Butter—Creameries, 24@33¢; Eggs—17½¢@22½¢. Poultry—Turkeys, 15¢; chickens, 13¢; springs, 12¢.

## Chicago Live Stock.

Chicago, Jan. 20.—Cattle—Beef, \$5.85@9.20; Texas steers, \$4.70@5.70; Western steers, \$5.40@7.15; stockers and feeders, \$4.80@7.60; cows and heifers, \$2.70@7.40; calves, \$7.00@10.50. Hogs—Light, \$7.30@7.55; mixed, \$7.25@7.57½; heavy, \$7.10@7.60; rough, \$7.10@7.25; pigs, \$6.00@7.45. Sheep—Native, \$4.75@6.15; yearlings, \$6.30@8.25; lambs, \$6.75@9.00.

## Minneapolis Grain.

Minneapolis, Jan. 20.—Wheat—May, 88½¢; July, 90¢. Cash close on track: No. 1 hard, 88½¢; No. 1 Northern, 87¢@88½¢; to arrive, 87¢@87½¢; No. 2 Northern, 85¢@86½¢; No. 3 Northern, 83¢@84½¢; No. 3 yellow corn, 43¢@43½¢; No. 4 corn, 42¢@42½¢; No. 3 white oats, 31¢; to arrive, 30½¢; No. 3 oats, 28½¢@29½¢; barley, 47¢@51¢; flax, \$1.30½¢; to arrive, \$1.30½¢.

## Hold Enormous Percentage of Present Forest Lands.

## CREATES SERIOUS PROBLEM

Commissioner of Corporations Conan Recommends to President Taft That Existing National Forests Not Only Be Retained by the Federal Government but Increased as Far as Practicable.

Washington, Jan. 20.—The concentration into the hands of a few powerful interests of an enormous percentage of the timber lands of the United States has created a problem so grave for the nation in the judgment of Luther Conant, Jr., commissioner of corporations, that he recommended to President Taft that the existing national forests not only be retained by the federal government but increased as far as practicable.

This note of warning was sounded by the commissioner in forwarding to the president the full text of part 1 of the bureau of corporation's investigation of the lumber industry made by direction of congress. A summary of this report, showing the extent of concentrated control of timber lands, was sent to the president and published nearly two years ago.

To increase government ownership of forest lands the commissioner urges that the forests of Alaska be included in the reserve, as well as all timbered lands recovered in forfeiture suits if the facts justify the procedure.

Mr. Conant warns that attempts are still being made to "secure the transfer of public timber lands to private owners under the same pleas of settlement which in the past often proved wholly specious and insincere."

## Desire to Acquire Timber.

"Much of the timber land still remaining in public ownership," continues the commissioner, "is adapted only for timber purposes. All that could be properly asked by a bona fide settler is the surface of arable lands after the timber has been removed, but too frequently back of the argument made in the name of the 'settler' is the desire to acquire the timber or other natural resources rather than the soil itself."

"It seems desirable, therefore, to direct public attention to the fundamental difference between disposing of agricultural lands to actual settlers, whose industry contributes directly to the material and social up-building of the community, and the alienation of virgin timber lands, which do not require, and, indeed, hardly permit of, improvement by private owners, and the value of which is rapidly rising because of reduction in the supply, and the increase in population. When, moreover, such lands become concentrated in a comparatively few hands there is, instead of a public service, a serious public danger."

In the summary of the report previously published the then commissioner of corporations, Herbert Knox Smith, set forth that the Southern Pacific company is the greatest private holder of timber in the United States, controlling 106,000,000 acres, the Weyerhaeuser Timber company, with 96,000,000 acres, the second largest, and the Northern Pacific Railway company, with 36,000,000 acres, the third.

## RICH ORE FIND ON RANGE

Virginia Syndicate Will Sink Shaft at Once and Operate.

Virginia, Minn., Jan. 20.—What is believed to be one of the most valuable iron ore finds on the Mesabi range has been made by Virginia men on a forty, one mile north of the city, and only one forty removed from the producing Silver mine.

The syndicate which has the lease from the fee owners is comprised of Harry Osterberg, H. O. Johnson, Walter J. Markham and Benjamin F. Smith. They have made a disposition of the property for operating purposes to M. E. Richards and associates, who will at once sink a shaft and operate the mine as an underground proposition.

## JULIA DORR, POETESS, DIES

Last of Famous Group of New England Writers Stricken.

Rutland, Vt., Jan. 20.—Mrs. Julia Caroline Hopley Dorr, the last of the famous group of New England poets and writers that included Emerson, Holmes, Longfellow and Lowell, died at her home in this city. She was eighty-eight years old. She was born in Charleston, S. C., on Feb. 13, 1825.

## Due to Misplaced Switch.

Brookhaven, Miss., Jan. 20.—The Chicago-New Orleans limited of the Illinois Central railroad was in head-on collision with a freight train near here. Two of the freight crew were killed and five passengers of the limited hurt, but not seriously. The wreck is said to have been caused by a misplaced switch.

MONDAY, JANUARY 20, 1913.

### THE WEATHER

Temperature record taken at Gull lake dam, by caretaker, Arthur L. Mantel:  
January 18, maximum 4 above, minimum 16 below.  
January 19, maximum 13 above, minimum 2 below.  
January 20, coldest registration up to 3 P. M., 22 below.

The Pine River Sentinel objects to the delegates to the state agricultural society being called "farmers." Bro. Silk was there as one of them and he ought to know.

St. Cloud Elks have issued a publication, the first publication of the Dim Dam Dems, and announce that it will be issued every "sixth Friday" in the month hereafter.

St. Cloud will entertain the Northern Minnesota Editorial Association on Friday and Saturday, January 24 and 25. A fine program has been arranged and the newspaper boys can depend on being royally entertained while in the granite city.

The Indian seems to have been an easy mark if reports are true, and in that connection it may truthfully be said that the rights of the Red man have not been as carefully guarded by the guardian as one would desire if the matter was a personal one.

The tonnage tax has loomed up in the state legislature again, and it is wondered if the object is to hold the whip hand over members from the northern part of the state or not. Time was when measures were introduced in legislative halls for the sole purpose of compelling members to "be good" on pain of passing a measure that would be objectionable to the particular part of the state from which the votes were needed. We trust that no such motive is behind the tonnage tax.

A serial story headed "Personal Property Taxes" is appearing simultaneously in many of the publications of Minnesota. The story is an interesting one, and shows the inequality of taxation throughout the commonwealth. The publication does not cost the county a cent but is donated by the newspaper men who out of their bigness of heart feel that they should donate this to the welfare of the community until such time as the legislature enacts a law requiring counties to have the same published at legal rates.

The city council has its regular meeting this evening.

Miss Vivian Brockway went to Verndale this afternoon.

Mrs. T. F. Cole, of Deerwood, was a Brainerd visitor today.

Mrs. C. A. Nelson returned today from a visit at St. Paul and St. Cloud.

County Commissioner J. J. Tucker, of Fort Ripley, was a Brainerd visitor today.

M. T. Dunn has returned from a business trip to the southern part of the state.

Ole Knudson of the Red River Lumber company of Akeley, is in Brainerd today.

C. I. McNair of the Northwest Paper company of Cloquet, was in the city today.

January Clearance Sale of outing and fleeced flannels at B. Kaatz & Son.—Adv.

Dr. C. A. Nelson returned today from Deerwood where he attended to several cases.

Old Pilsner style Brainerd beer. Famous for quality and purity. Delivered to any part of the city. Phone 213.—Adv.

The Drama League will meet at the library building tomorrow afternoon at 3:30 o'clock.

Miss Hattie Dahleen, who has been the guest of her sister Miss Augusta Dahleen, returned today to Maynard.

Rev. W. J. Lowrie of the Presbyterian church went to Kimberley this afternoon to hold services in the camps.

County Surveyor F. A. Glass has returned from the range where he was engaged in surveying at Oreland and other points.

**Empress**  
TUESDAY AND WEDNESDAY

Anna E. Maley, who speaks at the Walker hall this evening is sister of William E. Maley of Deerwood, formerly of Brainerd.

John H. Hill, deeply interested in Branton and on the Cuyuna iron range, is in the city today attending to business matters.

There was no district court this morning, as Judge B. F. Wright will not return until this afternoon from his home at Park Rapids.

Wilson Bradley, secretary of the Oreland Townsite company, is in the city attending to business matters connected with the townsite.

Water rents are due and payable this month for the first quarter of the year and if paid promptly householders will get a ten percent discount.

Masquerade ball by I. S. W. A. lodge, Jan. 27. Trades and Labor hall. Music by Blue Ribbon orchestra. Tickets 50 cents a couple. Extra ladies free. Dancing 9 o'clock.

Anna E. Maley, late candidate for governor on the Socialist ticket in state of Washington, is in the city and will speak at Walker's hall at 8 o'clock this evening. Admission free.

The young peoples society and choir of the Norwegian-Danish Lutheran church enjoyed a sleigh ride to the South Long Lake church Sunday morning, where they attended services.

YOUR LAST CHANCE to buy groceries at wholesale prices closes January 20. J. F. Dykeman.—Adv.

John Franson has received notice in the Swedish-American Posten that he has fallen heir to a large fortune in Sweden and Attorney G. S. Swanson is looking up the matter for Mr. Franson.

County Auditor J. F. Smart went to St. Paul today to attend the meeting of the State Historical society of which he is a member and will also attend the meeting of the State Auditors' association.

John Anderson, a transient who fell and broke his shoulder blade in Northeast Brainerd, developed pneumonia and the complication caused his death at a local hospital on Saturday. The council relief committee is endeavoring to trace up his relatives, as it is believed he had some in Iowa. The remains are now at Losey & Dean's.

The recital of the Brainerd Musical club will be given at Elks hall Wednesday evening, Jan. 22. Members will be admitted on presentation of their membership tickets, and non-members by payment of 50 cents. Membership tickets, not transferable. The club takes great pleasure in announcing the appearance of Miss

Mary Bradshaw, of Duluth, mezzo-soprano soloist, at this time.

Col. C. D. Johnson, state senator of this district, returned today to St. Paul to resume his legislative duties. The senator said the real work of the session would commence this week. "I heard a good story while I was down there about a new senator," said Col. Johnson. "His wife wired him: 'Dear John. Please don't forget you are a married man.' And John wired back: 'Dear Mary. Telegram received, but too late.'"

Dance of Blacksmiths and Helpers union, Gardner hall, Friday evening, January 24. Blue Ribbon orchestra. You are cordially invited.—Adv.

Dr. C. A. Nelson and Dr. Mervyn B. Purdy have returned from St. Paul where they attended the sixteenth annual meeting of the Minnesota Veterinary Medical association which was held at the Merchants hotel. The sessions lasted three days and were largely attended. Dr. Nelson is a member of the Committee on Infectious Diseases which made a report at the convention. In addition to a large number of fine papers read at the meeting there was a joint session with the Breeders association at Minneapolis and many also attended the clinics Friday at the Dr. C. E. Cotton hospital.

The Southeast Brainerd club gave its annual club party Saturday evening at its home, 1812 Oak street, thirty or more young people being present. The rooms were decorated in the club colors of gray and black interspersed with many gay pennants. "500" was played and Miss Bruhn won the ladies first prize, Anton Anderson the gentleman's first prize and Lester Bentley the booby prize. Another amusement was a poetry writing contest and Miss Ida Reid was awarded the ladies prize for her poetical effusion and Archie Falconer the gentleman's prize. Refreshments were served and all spent a very enjoyable evening.

A mean stuffy cold, with hoarse waezy breathing is just the kind that runs into bronchitis or pneumonia. Don't trifle with such serious conditions but take Foley's Honey and Tar Compound promptly. Quick and beneficial results are just what you can expect from this great medicine. It soothes and heals the inflamed air passages. It stops the hoarse racking cough.—H. P. Dunn, druggist.—Adv.

Judge W. S. McClenahan of the district court last week heard a case at Grand Rapids wherein Game Warden George Wood and Brown of Hibbing were charged with robbery by George Evanich and Andrew and Albert Anderson. The Andersons and Evanich are shackers and during last summer the warden seized from them parts of two deer, a barrel of venison, two rifles and a quantity of dynamite. They claimed the seizure was illegal and had both warden arrested on a robbery charge. Judge McClenahan ordered the jury dismissed at the end of the day's trial and the shackers were given a chance to change their plea to guilty, which they did and were fined \$50 and costs in each case, but on the recommendation of the game warden's sentence was suspended.

Take the "direct road" to health and strength by using Foley Kidney Pills for backache, rheumatism, weak, sore kidneys and bladder irregularities. Each ingredient is chosen for its positive healing and curative qualities. Foley Kidney Pills are the best medicine you can buy for kidney and bladder troubles. Mrs. J. M. Findley, Lyons, Ga., says: "I took Foley Kidney Pills and they entirely cured me." H. P. Dunn, druggist.—Adv.

W. R. Fox, 195 W. Washington St., Noblesville, Ind., says: "After suffering many months with kidney trouble, after trying other remedies and prescriptions, I purchased a box of Foley Kidney Pills which not only did me more good than any other remedies I ever used, but have positively set my kidneys right. Other members of my family have used them with similar results." Take at the first sign of kidney trouble. H. P. Dunn, druggist.—Adv.

### INSTALL NEW FIXTURES

Baker & Schaefer Install a New Refrigerator of Modern Design and Large Capacity

Baker & Schaefer, proprietors of the South Sixth street meat market, have installed a large Born refrigerator in their establishment, of modern design and said to be the only one of its kind between Chicago and Brainerd. It takes up almost the entire width of the building, measuring about 15 by 18 feet. Its capacity is two carloads of meats. The two sections are used, one for the shop meats and the other for the storage of hams and bacon which the firm makes and cures in Brainerd.

Weighing 15 tons, the refrigerator involved some time and expense in its proper installation, which was attended to by White Brothers, the contractors. The front of the refrigerator facing the public is ornamented with plate glass, mirrors and sections of Oppl glass spaces. At the foot are the half dozen compartments for carrying meats for the retail trade.

### Cut the High Cost of Living

W. H. Chapman, Winnebago, Neb., tells how he did it. "My two children had a very bad cough and the doctor's medicines did them no good. I got a bottle of Foley's Honey and Tar Compound, and before it was all used the children were free and cured of their cough. I saved a doctor's bill for one 25c bottle of Foley's Honey and Tar Compound." No opiates. H. P. Dunn, druggist.—Adv.

### Invents "Painless" Hatpin.

Mrs. C. A. Blessing, Jr., of Philadelphia believes she has found a way to eradicate the danger that comes from using long hatpins in women's hats. It is an invention of her own, and she calls it "the cushioned hatpin." The cushion fits on the pointed end and is made to resemble the handle of the pin.

WEEK ON RANGE**

Hunt and Hennen Option to Messaba  
Cuyuna Iron Co.—The Federal  
Mining Co. Lease

**TWO SHOVELS AT PENNINGTON**

Cuyuna-Sultana in Ore—Duluth-  
Brainerd Mining Co. Drilling  
West of Brainerd

Edward P. De La Hunt and Helen I. Hunt of Los Angeles, Cal., and Joseph Hennen and wife of St. Paul, have given an option to explore to the Messaba Cuyuna Iron company, four holes to be put down on each forty of the property which includes the east half of the northwest quarter and the northeast quarter of the southwest quarter of section 17, township 46, range 29. With the option is the right to call for a lease of 50 years with 35 cents a ton royalty and on ore assaying 40 percent or over in manganese 50 cents a ton. The minimum tonnage is set at 20,000 tons the first year, 25,000 tons the second year, 35,000 tons the third year, 40,000 tons the fourth year and 50,000 tons the fifth and every year thereafter. Ernest Le-Duc of Duluth, is the president of the Messaba Cuyuna Iron company and D. D. Murray is the secretary. The Messaba Cuyuna Iron company has on file an assignment of an option to W. H. Locker of Duluth.

The Federal Mining company has filed its lease to the Cuyuna-Duluth Iron company dated December 12, 1912, and of 50 years duration. The land is situated in the east half of the northeast quarter of section 31, township 47, range 28. The royalty is 45 cents a ton and the minimum tonnage 25,000 tons the first year, 35,000 tons the second, 50,000 tons the third and 65,000 tons the fourth year and 75,000 tons the fifth and every year thereafter.

The Cuyuna-Duluth mine at Iron-ton is now down 92 feet. A Cameron and a Burnham pump handling 60 gallons a minute keep the shaft clear of water. Twelve miners are at work. Day and night shifts are employed and already quite a stockpile is looming up. A launder has been built on the 17 foot wide strip on the west side of the townsite. Charles Anderson is the shift boss and Capt. Wm. Pascoe the mining captain in charge.

The Cuyuna-Mille Laes mine is sheathing its boiler house with galvanized iron. The shaft is 185 feet deep and will be sunk to 200 feet at which point another level will be run. A double drum hoist is being installed. Foundations are being laid for the head frame.

E. J. W. Donahue, Rev. E. Lehne, Otto Wendlandt, John Ward and W. H. Denny of Duluth, were on the range during the week inspecting their holdings at the Cuyuna-Sultana property where two holes have been put down, the second hole striking ore.

The Thomas Keating eighty west of Crosby was drilled for ore by Geo. H. Crosby and none being discovered, the surveying crew of Mr. Crosby is now engaged in platting the addition whose streets will run into Crosby and be platted in conformity with that town.

A scene of great activity in mining operations is apparent at the Pennington pit mine to the west of Crosby and Iron-ton. Two standard gauge locomotives have been received from Biwabik and 30 sixteen yard dump cars. Tracks are being laid. The two steam shovels with five yard dipper are at work cutting into two sides of the ore body. In checking up the drilling at the Pennington mine the Crosby Exploration company rushed a force of nine drills on the property. The Pennington will be a big shipper this season, the first pit mine on the Cuyuna range to enter the lists.

H. E. Wetherbee of Cleveland, O., a mining engineer and smelter man, accompanied P. H. Nelson of Hibbing on the range. They visited the Carlson-Williams hydraulic property out at Little Rabbit lake. County Treasurer Hanke of Minneapolis, was on the range during the week looking after his mining investments.

The Crosby Exploration company has 15 drills at work, of which seven are working north of Crosby. The Helmer Exploration company is drilling its second hole for the Duluth-Brainerd Iron company in section eight west of Brainerd. The first hole struck paint rock and a wall of slate and accordingly the second hole was shifted to get within this formation. The second is expected to strike ore. This company has many options on lands lying west of Brainerd and Barrows.

At the Barrows mine of the Virginia Ore Mining company the 3,000 gallon pump is being installed at the 160 foot level. The Vermes-Cuyuna Mining and Development company is having its lands on the north range drilled by the Helmer Exploration company. Their property has a most desirable location with developed properties and producing mines all about them.

In a report issued by the Cuyuna-Mille Laes Iron company, the company is stated to be in a very good financial condition, with no outstanding indebtedness. The development work has been very satisfactory. The shaft (three compartment) is now down 185 feet. It is the intention of the board of directors to sink the shaft to a depth of 250 feet or more. Ore was encountered

at 53 feet and has been continuous to the present depth, and according to the drill records will continue for at least two or three hundred feet more. The ore in the shaft is showing up better than the drill records did. At the 126 foot level a pumping station was cut. A drift was started and extended 138 feet from the pumping station. The ore encountered in the drift was good. It contained about 30 percent manganese and 31 percent iron. The phosphorus and silica were low. The beauty of the drift was the fact that it, as well as the cross-cuts from the drift, and the shaft showed about the same quality of ore, in the top, bottom, sides and heads. It is simply ore everywhere, in the drift, cross-cut and shaft, from 53 feet down to the present depth.

Some 20 cars of ore have been shipped to Ashland, Wis., and Chicago, Ill., to try out the ore. The result was very satisfactory. In addition to the camp and previously reported equipment, the new sheet iron boiler house is practically completed. There are two 150 horsepower boilers installed which will furnish sufficient power for some time. There is an air compressor, fully equipped, in operation; a new double drum hoist with a capacity of 12,000 pounds on the ground ready to be installed. The double drum hoist will permit of working on two levels at once. The head frame will be completed by March first next.

The water question is not a serious one. There are something like from five to six hundred gallons per minute, but the pump supply is sufficient to take care of a much larger quantity of water than the mine has now to contend with.

Market conditions in regard to ore are good. There has been a substantial advance in the price of ore for 1913 over that of last year, and the price of ore is even liable to go higher. The manganese market is strong and much higher than last year. In the past practically all the manganese ore used in the United States has been imported, the greater part coming from the Balkan states. The Balkan war will necessarily diminish the output and consequently increase the demand for manganese steel.

**INCORPORATE ASSOCIATION**

Northern Minnesota Development  
Association Files Papers, Head-  
quarters at Bemidji

In accordance with the decision of the Northern Minnesota Development association to assume legal standing as an incorporated body, articles of incorporation have been filed with the secretary of state by W. R. Mackenzie, secretary of the association. It has no capital stock.

The incorporators are Cyrus M. King of Deer River, C. A. Allbright of Brainerd, C. L. Conger of McIntosh, Hubert V. Eva of Duluth, M. N. Koll of Cass Lake and W. R. Mackenzie of Bemidji, the officers of the association. The headquarters are to be at Bemidji, and as required by law, the annual meetings are to be held there.

**SUNDAY SCHOOL  
CONVENTION**

A Well Attended District Conven-  
tion is Held at Crosby on  
Sunday, January 19

**BRAINERD SPEAKERS PRESENT**

Included Dr. Joseph Nicholson, Rev.  
Elbert E. Satterlee and H.  
F. Michael

The Sunday school convention of the Deerwood district was held at Crosby on Sunday afternoon and evening, January 19, at the Presbyterian church. A large number of Sunday school workers from all parts of the county including the officers of both the county and district organizations were present. Albert Henry, one of the most energetic workers of the county, is president of the Deerwood district and had charge of the convention.

The following program was carried out: Afternoon session, song service, scripture and prayer, Rev. Mr. Blanchette; introductory remarks, Albert Henry; report of nominating committee and election of officers; report of district secretary, Mrs. William Reid of Deerwood; report of district treasurer, Earl Dawson; "Teachers Training, How and Why?" Mr. Anderson; "A Cradle Roll in Every School; Why?" Miss Maud G. Hage of Deerwood; "The Problem of the Boy; How to Get Them and How to Keep Them." Mrs. M. Ellington of Iron-ton; "The Deerwood District Organized," Dr. Joseph Nicholson of Brainerd; offering; solo, Bruno Olsson of Crosby; benediction, Rev. Ruland.

Evening Session—Song service; scripture and prayer, Rev. Mr. Ruland; solo, Bruno Olsson; address, Rev. Elbert E. Satterlee of Brainerd; offering; hymn; illustrated lecture with stereoscopic views, 100 slides, H. F. Michael of Brainerd; benediction, Rev. Mr. Ruland.

**Notice Knights of Columbus**

All Knights of Columbus are requested to be present at a regular meeting at their hall tomorrow evening, January 21. Many important matters will be open for discussion. Social session will follow the regular meeting.

T. H. CONSIDINE,  
Adv't.—1 Grand Knight.

**BRAINERD ICE CO.  
IS CUTTING ICE**

38 Teams and 40 Men Employed for  
the Two Weeks' Season of  
Garnering Ice Crop

**PAYROLL APPROXIMATES \$1,500**

Rice Lake Ice in Finest Possible  
Shape Measuring 20 Inches in  
Thickness

The Brainerd Ice company has commenced garnering its season's ice crop at Rice lake and 38 teams and 40 men are engaged in the work of cutting, hauling and storing the ice. St. Hall has charge of the work on the ice. A steam engine hauls the 275 foot chain which hoists the blocks of ice from the water to the loading platforms. B. F. Boyd is the engineer in charge. Every man hauling gets his ticket and is paid according to the tonnage carried.

At the ice houses Robert Boggles checks up the ice as it is received. The ice is of a fine quality and measures 20 inches in thickness, making the cakes of a weight easily handled. The first ice house to be filled is the big one near the West Brainerd or hospital bridge. Then the Northeast Brainerd ice house will be filled as well as many small private houses.

The season of two weeks means an outlay in wages of approximately from \$1300 to \$1500 and gives employment to many.

**Plan a Quiet Wedding**

George Kerr, a well known engineer on the Minnesota & International railway and Miss Ella McGarry, the daughter of Mrs. John McGarry, have planned a quiet wedding this evening, the ceremony to take place at the parsonage of St. Francis Catholic church, Rev. Father J. J. O'Mahoney officiating. The matter has been kept a secret in order to surprise their friends and also because the young couple wished to take the night train to Bemidji, thus giving the slip to many friends who might have gone to the depot and bombarded them with rice.

Ambrose McGarry will officiate as best man and Mrs. R. E. Quinn as bridesmaid. The young people are well known in Brainerd and their many friends will wish them much happiness and prosperity as soon as Father O'Mahoney pronounces the solemn words which join them in holy wedlock.

**TIE PLANT STARTS  
FEBRUARY FIRST**

Lowry Smith, superintendent of the tie treating plant of the Northern Pacific railway, has arrived in the city from Paradise, Mont., the western tie plant of the road and stated today that the Brainerd tie treating plant would commence work February first.

This means the employment of 75 local men and as the payroll runs \$5,000 a month, it is so much additional prosperity for Brainerd workers and Brainerd business men.

Supt. Smith left this afternoon for Chicago where he will attend the national convention of the wood preservers association. He expects to return about January 25.

Z. J. LeBlanc, who was assistant engineer at the Paradise plant, has returned to Brainerd and has been promoted to the position of engineer here.

What greater gift or blessing could one give than health and happiness. To your unhealthy friends give Hollister's Rocky Mountain Tea, nature's greatest tonic remedy. Drives out disease, brings back health and happiness. You'll be surprised the good it will do.—H. P. Dunn.—Adv't.

**THEY NOTICE BUSH**

Minneapolis Tribune, Duluth Herald, Superior Telegram and Other Papers Mention Him

When Leslie Bush was signed up by Manager Connie Mack for the coming season the Minneapolis Tribune, Duluth Herald, Superior Telegram and other papers took cognizance in their sporting departments and Bush received many flattering notices.

The Minneapolis Tribune paid a half column tribute to the boy pitcher. The Superior Telegram ran his picture and half a column of reading matter on the sporting page. The Duluth Herald gave him a news mention and also the following editorial comment by Bruce:

"Leslie Bush, the boy pitcher of Brainerd, is going back to the Connie Mack herd, and in the case of Leslie keeping on the grade he started to mount last season, he is liable to become one of the regulars of the White Elephants. With the example of Bender, Plank and Jack Coombs to emulate, solely in the twirling line, Leslie will have some fine human studies to work over nights."

Bowels clogged, sick, headache, no fun is it? Why not have that happy face, red cheeks that come with good digestion. Hollister's Rocky Mountain Tea makes the bowels work regular, natural, makes you feel like new. Take it tonight. H. P. Dunn.—Adv't.

**THOSE GOLDEN EGGS**

The Old Hen That Lays Them is Not  
so Cranky as Depicted by  
Your Reporter

Editor Dispatch: That golden egg story from the facile pen of your able reporter was good reading, but the substance of some of the interviews therein quoted have been the cause of a good deal of sickness and I feel inclined to act the part of the good doctor and cheer up those whose stomachs have been so suddenly put out of order.

Those Northern Pacific people are not so small as set forth. They are busy running a railroad to carry passengers and freight for money, and don't neglect their business to discriminate in favor of, or against a town, for pique or spite. The shops here are too well located and established to be moved, and if the company could make or save money by moving them at any time they would go whether the Soo road was in here or not. The division was taken and Brainerd left on a branch, and Staples as well as Dilworth built up at the expense of this city, when the Soo road was not within a hundred miles.

Nobody is fighting the Northern Pacific road when trying to get the Soo in here. We want connection with those best towns in the county, and the Northern Pacific would gain by the increase of business and population here, and if we were connected up by the extension of the Soo line from Riverton the Northern Pacific would get a good share of that business on the range which now all goes to the Soo. Everything now shipped from Duluth, the Twin Cities or Chicago, to Crosby or Cuyuna is carried over the whole route on the Soo, and St. Paul and Minneapolis cannot compete with Duluth or Chicago for the trade of those towns. Get the Soo in here with a transfer at the Twin Cities and the Northern Pacific road will get a share of that business which they don't get a smell of now.

Golden eggs are good things, so is the common variety at present prices, but we don't get either kind without paying for them, and if they are a necessity in our business and life we are not wise to put all our trust in one old hen or all our eggs in one old basket.

Again railroad companies don't give extra service where there is no competition, or unless they can get an increase of business thereby, and the managers would not be good business men if they did. There are but two railroad systems in Minnesota north of Minneapolis and this city is important enough to have both of them, and the special feature of the present effort is to get rail communication between the county seat and the three best points in the county, now entirely cut off from us except by wagon or automobile.

JAY HENRY LONG.

**BLACK HAWKS  
INCORPORATE**

Club Formed For Social Purposes and  
to Maintain a Curling Club  
in Brainerd

**HAS CAPITAL STOCK OF \$5,000**

Directors Include Messrs. Allbright,  
Whitney, Stout, Hoorn and  
Knudsen

The Black Hawks club has been incorporated and the general nature of its business, according to the incorporation papers recently filed, is the promotion and development of the social interest of its members and the maintenance of a curling club. Brainerd is the principal place of business.

Commencing March, 1913, the duration of the corporation is a period of 30 years. The incorporators are Messrs. C. A. Allbright, D. E. Whitney, F. E. Stout, K. H. Hoorn and L. Knudsen, who also figure as the first board of directors.

The officers elected are:  
President—Judge C. A. Allbright.  
Vice-Pres.—D. E. Whitney.  
Secretary—F. E. Stout.  
Treasurer—Dr. K. H. Hoorn.

All will hold office until the next annual meeting of the corporation to be held on the first Monday in February, 1914, and thereafter the board of directors shall be elected by a majority vote of the stockholders.

The capital stock is \$5,000 and the shares are \$100 each. The corporate membership is limited to 50 members who shall be stockholders, male white persons over 20 years of age, of good moral character and who shall be elected to membership by unanimous vote at a regular meeting of a quorum of the corporation. The highest amount of indebtedness allowed shall be \$5,000.

**Hints For Housekeepers**

Keep Foley's Honey and Tar Compound always on hand and you can quickly head off a cold by its prompt use. It contains no opiates, heals and soothes inflamed air passages, stops the cough, and may save a big doctor's bill. In the yellow package. H. P. Dunn, druggist.—Adv't.

**BEST AND HEALTH TO MOTHER AND CHILD.**  
"MRS. WINDLOW'S SOOTHING SYRUP has been used for over SIXTY YEARS BY MILLIONS OF MOTHERS FOR THE CHILDREN'S WILLING TREATING, WITH PERFECT SUCCESS, IN SOOTHING THE CHILD, SOFTENING THE GUMS, CURE ALL PAIN, COLIC, WIND, COUGHS, AND THE BEST REMEDY FOR DIARRHOEA. It is absolutely harmless. Be sure and ask for 'Mrs. Windlow's Soothing Syrup' and take no other kind. Twenty-cent bottle."

**"MICHAEL'S"**

**ERICSSON BROS. BAKERY**

New Wholesale and Retail Bakery  
Commences Business This Morn-  
ing in Lagerquist Block

The new bakery of Ericsson Brothers has commenced business in the Lagerquist block on the corner of Maple and South Sixth streets. A wholesale and retail business will be done.

The first batch of bakery goods turned out was doughnuts, which the reporter had the good fortune to sample and they were certainly delicious, light and equal to anything mother could make in her palmist days.

The large front room will be used as a lunch room for ladies and gentlemen. New furniture and fixtures are a feature of the establishment. The motto of Ericsson Brothers will be "Cleanliness" and it is exemplified in every department of the business.

The bench room is light and airy and a most pleasant place to work in. E. D. Fridenlund of Minneapolis has been employed as a baker and Elmer Dahl of Brainerd is his assistant. The oven room is in the new brick addition recently built by Mr. Lagerquist, measuring about 24 by 30 feet in size, well supplied with light and air and making it a most sanitary place to bake in. The oven is a No. 4 "Middleby," built by the Middleby-Marshall Oven company of Chicago. It has a capacity of 400 loaves of bread in one baking.

Ericsson Brothers are ready to supply all your wants in all lines of bakery goods and their endeavor will be to satisfy customers and to use the best material money can buy, thus assuring them of ample success. Deliveries are made to all parts of the city. The wholesale trade out of Brainerd in particular will be worked up. Their street address is 324 So. Sixth street and their new telephone number is 512.

**INSPECTS CROSBY'S  
NEW RESIDENCES**

Crosby, Minn., January 20—Dr. B. N. Rastall of Duluth, an expert on the housing problems of large cities, was at Crosby with George H. Crosby, the founder of the city, and inspected the 30 or more modern dwellings recently constructed by Mr. Crosby and expressed himself as pleased with their modern design and construction and the many conveniences afforded.

**PILES CURED IN 6 TO 14 DAYS**  
Your druggist will refund money if PAIN-O-INTMENT fails to cure any case of Itching, Blind, Bleeding or Protruding Piles in 6 to 14 days. 50c.

CRAFTY MURDERS BY MEANS OF DISEASE GERMS IS NEW METHOD

Scientists Open Warfare on the Deadly Use of Typhus and Cobra. Latest Practice of Crime Defies Detection---Would Form Bureau.

MURDER as a science, which has leaped in great bounds ahead of organized efforts toward the detection of that crime, was pictured to county officials in Chicago by criminologists arguing on the need of a "science bureau" in the coroner's office.

Scientific slaying of human beings in manners almost impossible of detection was described to the amazed officials by Professor Walter S. Haines, whose chemistry for years has combated the murderers, whose weapon is poison.

Professor Haines told how the modern murderer has found in the scientific bacilli a weapon equally as deadly as the knife, the revolver and the ordinary poison without the telltale traces of any of these. His hearers shuddered at his vivid portrayal of present day murders committed under cover of science.

Twentieth century methods of committing murder that give the criminal almost as thorough protection as if he were possessed of the good fairy's invisible mantle were described. In his recital Professor Haines was backed up by Dr. Ludwig Hektoen, another authority.

Would Form Bureau. With Dr. Hektoen Professor Haines is pioneering in the work of establishing the scientific bureau to devise ways and means to combat murder by typhus germs, by cobra poison, by deadly prickles and by other methods that give to the murderer immunity even from suspicion.

Professor Haines offered the startling information that crime is more successful than business—in other words, that the percentage of murderers detected in their crime is less than the percentage of men who succeeded in commercial ventures.

Coroner Hoffman joined with Professor Haines in asking the finance committee of the Cook county board for an appropriation of \$2,500 a year for a chemist, \$75 a month for an assistant and \$1,000 for apparatus in order to lay bare a larger percentage of murders that are committed by scientific cunning.

Market For Germs.

Harry Olson, chief justice of the municipal court, who is also a member of the coroner's advisory board, created a sensation of his own by the statement that criminals are actually in the market today for deadly bacilli.

"Of late I have heard of different instances where suspicious characters have attempted to purchase typhoid germs," Judge Olson told the county commissioners. "What did they want with them? And if the germs were used with murderous intent, what means have we of detecting the guilty persons? I admit that it offers a difficult problem in any event, but we must equip ourselves as far as possible to fight such crimes."

The murderous dagger and death

of from twelve to twenty-four years.

It was learned also that on Dec. 1, 1910, Gold had another fire in which his insured furniture was slightly burned. At that time Gold lived at 574 East One Hundred and Thirty-eight street, in the Bronx.

From the investigation of the office of District Attorney Whitman it appears that an agent posing as a life as well as a fire insurance broker has figured in the adjustment of many fire losses. It is stated that he was able to go to one or two fire insurance companies with which he transacted most of his business and after filing a schedule for a total loss, say, of \$1,000 for damages to furniture by fire would offer and was able to effect a settlement on a 50 or 60 per cent basis.

In these cases, it is charged, the companies' representative would make an examination and ascertain that the fire was of a suspicious origin, report the matter to Fire Marshal John P. Frial, take less than the schedule called for, would be quick to procure a settlement and take up and cancel the policy of insurance and call it a good settlement.

Human life was held cheap. The fires are most numerous in the thickly congested tenement houses on the east side, where there are six to eight families living on one floor. It is not intended that the incendiary should do anybody else the favor of starting a fire except to make a fire of the furniture of the man who employs him.

District Attorney's Statement. The formal report is as follows: "Investigations by the fire marshal's office show that a great many of these fires are confined to the rooms of one apartment; that \$100 worth of damage to furniture, clothing and bedding is swelled into a \$500 or a \$1,000 claim. The insurance companies do not consider that this claim is large enough to fight through the courts, either to take the matter up with the authorities or to contest the claim in the civil courts. Not infrequently is life lost, but the firebug never thinks of others. He touches a match to a clothes closet filled with rags and old clothing saturated with benzine or gasoline, opens one of the windows slightly from the top, slips out of the apartment quietly and quickly and then crosses over to the other side of the street, lights a cigarette and waits to see the horses of the fire department come racing down the street."

On the Safe Side. Schroeder (to his neighbor, a widow)—Why did you send your housekeeper away, since she was such a good cook? The Widow—She made such splendid puddings I was afraid I should marry her.—Fliegende Blätter.

Agent Helps Plotters. The charge to which Gold pleaded guilty was that of hiring one Isidor Stein, better known as "Izzy the Painter," to set fire to his furniture in an apartment upon which Gold had \$1,200 insurance. Stein was tried last month and convicted and is at present in Sing Sing prison, serving a sentence

Little Grand Duke Subject of Rumor. Romance and Plot

AS the royal subject of gossip, rumor and plots the little Grand Duke Alexis of Russia figures as the boy of mystery and romance. Principally the mystery relates to the physical and mental condition of the little fellow, who is now eight years old.

If the czarvitch is a hopeless cripple with tuberculosis of the hip, which is generally believed, he can never take the throne on the death of his father, the czar.

Recently a highly romantic story as to the royal boy was published all over the world and was quickly denied. According to the repudiated report, the czar sent to Berlin and summoned Dr. James Israel, one of the greatest surgeons in the world, to perform an operation on the boy's hip. Before he would come, it was reported, the famous surgeon demanded a fee of \$25,000 and a royal dispensation for the Jewish race. The dispensation was to be that of placing the Jews of Kiev and Odessa, who had been long persecuted, on an equal, free and unmolested footing with the Christians. The report stated that the

THE CZARVITCH.

czar quickly agreed to both the demands of the physician, and the operation was successfully performed.

Dr. Israel himself is credited with denying the romantic story, declaring he did not perform any such operation.

Previous to the report of the operation a rumor gained wide credence that the little czarvitch had been stabbed fruitfully by an assassin on board his father's yacht, the Standart. This later was denied.

Now a new heir presumptive to the throne is being discussed.

High society in Russia is accustomed to the idea of accepting Grand Duke Dmitri Pavlovitch, twenty-six years old, a nephew of the present czar, as heir presumptive to the throne. He has not heretofore been generally mentioned as possible successor to the crown, and his name comes as a complete surprise to every one except those who by reason of their position either belong to the court circle or have close relations with it.

No Crime May Be Czar.

The physical disability of the little czarvitch is now recognized as complete among all the intelligent classes of the empire. The dangers and disadvantages of having a crippled sovereign are understood in all states, but a crippled autocrat of all the Russias, with its great empires and peculiar problems, is unthinkable. It is now known that the czarvitch has tuberculosis of the hip joint as well as hemophilia, the hereditary disease to which a considerable number of princes have been subject and which is characterized by excessive bleeding from the slightest wound. The czarvitch is doomed to lifelong invalidism.

The path to the throne has been cleared for Grand Duke Dmitri by a remarkable sequence of family occurrences. The names of the Grand Duke Michael and Grand Duke Cyril are those which have been most mentioned in connection with the succession since the news of the young czarvitch's condition began to filter out from the palace to the public. Yet all the time the court circle has recognized that, barring the unforeseen, Grand Duke Dmitri will be officially recognized as heir presumptive.

Grand Duke Dmitri is the only son of Grand Duke Paul, the youngest brother of the late Emperor Alexander III. Grand Duke Michael, the czar's only brother, would naturally be heir presumptive now, as he was during the time preceding the birth of the czarvitch and when the czar was having a succession of daughters, were it not for one of those family occurrences mentioned which are so fortunate for Dmitri. The fact is that Michael has been announced and now repeats that he has married under the prescribed forms of the orthodox church Mme. Scheremetievsky, divorced wife of a Russian cavalry officer. He has two children by her and has formally renounced his right of succession.

How's This. We offer One Hundred Dollars Reward for any case of Catarrh that cannot be cured by Hall's Catarrh Cure. F. J. CHENEY & Co., Toledo, O.

We, the undersigned, have known F. J. Cheney for the last 15 years, and believe him perfectly honorable in all business transactions, and financially able to carry out any obligations made by him.

WALDING KINNAN & MARVIN, Wholesale Druggists, Toledo, O. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system. Testimonials sent free. Price, 50c per bottle. Sold by all druggists. Take Hall's Family Pills for constipation.

RAILROAD NEWS

The Dispatch beat out Duluth on an item regarding broken rails near Duluth which the Duluth News-Tribune refers to as follows a week after the accident: "A flat wheel on a railroad car can do a lot of damage if the temperature is favorable, as was demonstrated on the Northern Pacific's old line through Shortline Park, between Duluth and Carlton January 12. One flat wheel on a freight car broke more than 300 rails, and all within a short distance. The result of the hammering of the wheel was a freight wreck, in which several cars were derailed, but nobody was injured."

Trains on the Southern Minnesota railroad were suspended 40 years ago today. The engineers struck because their wages had not been paid, which is enough to make any man mad enough to quit.

As the temperature toys with 20 and 30 below, the automobiles, bicycles and motorcycles of Brainerd seek the shelter of the garages. But not so with Jerry Glunt, the yardmaster of the Northern Pacific railway at Brainerd. Cold does not seem to phase Jerry or his wheel and he rides around as gaily as though he was exercising in a summer breeze. Occasionally he has to stop to brush the icicles from the gearing, but otherwise there seems to be no trouble.

STOMACH SOUR! GOT INDIGESTION ALSO!

"Pape's Diapepsin" Will Make Your Disordered Stomach Feel Fine in Five Minutes. Time It!

If what you just ate is souring on your stomach or lies like a lump of lead, refusing to digest, or you belch gas and eructate sour, undigested food, or have a feeling of dizziness, heartburn, fullness, nausea, bad taste in mouth and stomach headache—this is indigestion.

A full case of Pape's Diapepsin costs only fifty cents and will thoroughly cure your out-of-order stomach, and leave sufficient about the house in case some one else in the family may suffer from stomach trouble or indigestion.

Ask your pharmacist to show you the formula plainly printed on these fifty cent cases, then you will understand why dyspeptic trouble of all kinds must go, and why they usually relieve sour, out-of-order stomachs or indigestion in five minutes. Diapepsin is harmless and tastes like candy, though each dose contains powder sufficient to digest and prepare for assimilation into the blood all the food you eat; besides, it makes you go to the table with a healthy appetite; but, what will please you most, is that you will feel that your stomach and intestines are clean and fresh, and you will not need to resort to laxatives or liver pills for biliousness or constipation.

This city will have many Diapepsin cranks, as some people will call them, but you will be cranky about this splendid preparation, too, if you ever try a little for indigestion or gastritis or any other stomach misery.

Get some now, this minute, and forever rid yourself of stomach trouble and indigestion. Adv.

KILLS CHILD TO END MISERY.

Distraught Mother Said to Have Choked Daughter to Death.

The inquest into the case of the death of the thirteen-year-old daughter of Mrs. Woods in London, who was an invalid from childhood and who was strangled by the mother, as it is believed, to put the child out of her agony, resulted in a verdict of wilful murder against Mrs. Woods. The woman was too ill to appear, and the jury added to its verdict that the state of her mind should be inquired into.

The child at times suffered agonizing fits. Her mother, according to the testimony of the husband and father, had attended the child constantly, but could give her no relief. Finally in a recent attack the mother became distraught at the child's sufferings and strangled her to put her out of her misery. The husband was absent at the time.

Full Benefit. Watts—Let's walk along until a car overtakes us. Potts—No. Let's walk the other way until a car meets us. We will catch it sooner, we will go downtown just as quick, and we get more ride for our money.

Escaped After Fifteen Years. W. P. Broyles made a successful escape after fifteen years of suffering from kidney and bladder troubles. Foley Kidney Pills released him and will do just the same for others. He says: "They cured a most severe backache with painful bladder irregularities, and they do all you claim for them." Refuse substitutes, H. P. Dunn, druggist.—Adv.

BRAINERD DRUGGIST MAKES A STATEMENT

We always advise people who have stomach or bowel trouble to see a doctor. But to those who do not wish to do this we will say: try the mixture of simple buckthorn bark, glycerine, etc., known as Adler-I-ka. This simple new remedy is so powerful that JUST ONE DOSE usually relieves sour stomach, gas on the stomach and constipation QUICKLY. People who try Adler-I-ka are surprised at its QUICK action. Johnson's Pharmacy.—Adv.

FARMERS' CONGRESS HAS BIG PLANS FOR FUTURE. Executive Committee Maps Program. To Be Greatest of Its Kind.

At a recent meeting of the executive committee of the farmers' national congress tentative plans were formulated for completing the organization of that body under its new constitution. At the annual meeting in November, 1912, at New Orleans this association was reorganized with a view to developing it at once into the greatest agricultural society and the greatest country life federation in the world.

It is proposed to develop a national agricultural society to which all farmers may belong and to which all state, interstate and national associations, institutions and departments devoted to country life will adhere and in which they will be represented by delegates. It is not to take the place of any existing organization, but part of its work will be to build up all constituent organizations and to deal with only general questions of national scope relating to farming and farm home making.

It is expected that there will be 700 delegates representing farmers of the different states and 2,000 delegates representing the societies of agriculture, horticulture, live stock, women's clubs, agricultural colleges, experiment stations, departments of agriculture and similar institutions.

The possibility of this becoming a farmers' trust is prevented by including state and governmental institutions and departments, which find it necessary to be nonpartisan that they may do their work under the different political parties successively in favor. It is not so much an organization for economic interests as it is a general country life welfare organization. As the nation's great agricultural society the new constitution provides that it may conduct a national fair and may issue reports and other publications of nation wide interest and scope.

DO IT WELL. Do everything well—make that the rule of your life and live up to it—and you will find it most conducive to your own happiness and to the happiness of those with whom you are brought into contact or communication. It pays to do all things well.

NERVOUS? All run down? Ayer's Sarsaparilla is a strong nerve tonic. No alcohol. Sold for 60 years. Ask Your Doctor. J. C. Ayer & Co., Lowell, Mass.

HIGH CLASS PRINTING

The Brainerd Dispatch is equipped for printing Catalogues, Mining Prospectuses, Townsite Prospectuses, Townsite Booklets, Town Advertising Booklets, Maps, Special Blanks, or any other kind of printing required by mining or business interests.

RAILROAD TEACHES JAPANESE

Workmen From Nippon Learn the English Language.

Teaching English to Japanese workmen is one of the tasks of the educational bureau of the Union Pacific Railroad company, according to information received at the United States bureau of education. More than 800 Japanese section foremen and trackmen are employed by the railroad, and for the benefit of these men instruction books are issued in Japanese and English.

It is believed that by handling practical problems of railroading in both languages the Japanese workers will not only gain the necessary technical information, but also increase their knowledge of English.

DISPATCH BUILDING, South 6th St., BRAINERD
